

Rainan Lapasaran

Bacoor, Cavite • +63 908-106-1295 • rainanlapasaran@gmail.com • github.com/lapasaranrainan-cloud

Summary

Applied Mathematics student skilled in Python, SQL, Excel, Power BI and Data Analytics. Passionate about transforming data into actionable insights through analytics and visualization.

Education

Cavite State University - Main Campus
Bachelor of Science in Applied Mathematics
DOST - SEI Scholar

Indang, Cavite
2023 - Present

Projects

House Price Prediction Using Multiple Linear Regression

June, 2026

Personal Project - Github

- Developed a Multiple Linear Regression model to identify key price drivers.
- Implemented model validation using regression diagnostics to ensure data reliability.
- Conducted exploratory data analysis to uncover insights.
- Communicated complex results through simple visualizations.

Retail Sales Dashboard and Business Intelligence Analysis

July, 2026

Personal Project - Github

- Analyzed retail sales data to identify trends and latent patterns.
- Developed an interactive Power BI dashboard featuring KPI sales monitoring.
- Improved data quality through cleaning and preprocessing with Python/SQL.
- Generated actionable business insights to support data-driven decision-making

Skills

Language Skills: Proficient in English and Tagalog

Programming Languages: Python, SQL, R

Software: Excel, Power BI, JASP

Certifications

Data Analytics Course - Simplilearn

July, 2026

- Introduction to Data Analytics.
- Python for Data Analysis.
- SQL for Data Analysis
